VII. GENERAL PROCUREMENT VENDOR CONTRACTS

The Sands has made a real commitment and effort to use local businesses as vendors and suppliers. We have reached out to the larger community by establishing and growing business relationships with vendors who classify as MBE's or WBE's. We have made an effort to empower local MBE's and WBE's through outreach initiatives that help start, develop and expand businesses so that they can successfully bid on the goods and services for the Sands. MBE/WBE businesses receive “priority” consideration when bidding on goods and services to the extent permitted by law.

The Sands has partnered with the Community Action Committee of Lehigh Valley to assist in identifying MBE/WBE business and helping them through the certification

process. Additionally, this organization encourages MBE/WBE to participate in the Sands-sponsored mentor program.

As a socially responsible organization, the Sands partners wherever possible with minority and woman vendors, as well as other diverse groups, to create a mutually beneficial business climate. Our goal is to ensure that all qualified vendors are given equal opportunity to bid on goods and services.

The following initiatives are in support of our diverse vendor procurement mission:

- Continue to utilize the Pennsylvania Department of General Services Bureau of Minority and Women Business Opportunity business directory and database to locate minority and diverse vendors that offer relevant products and services.
- Solicit the direct help of the Director of the PA Department of General Services and his staff to locate minority and women owned businesses that are capable of handling a project of this scope and size as well as assisting with the registering and certifying of minority and women owned businesses within the Commonwealth.
- Investigate the possibility of linking the Sands website to the Pennsylvania Department of General Services Bureau of Minority and Women Business Opportunity to facilitate awareness and to simplify the application process for potential vendors.
- Continue to host information seminars for local Minority and Women Owned Businesses.
- Continue to attend and support Pennsylvania regional minority business fairs.
- Periodically review the Pennsylvania Department of General Services Bureau of Minority and Women Business Opportunity list of approved vendors for any changes.
- Create a mentoring environment for new and potential minority and women owned vendors so that they can better understand the needs of a casino facility and to possibly expand the line of products and services that they provide.

- Have user departments review annual budgets for purchasing opportunities and work with the minority database and reach out to those minority suppliers provided by the purchasing staff.
- Consider minority and women-owned business enterprises when reviewing Capital Expenditure projects.

The Sands will continue to follow these initiatives and to develop others as it continues to foster an inclusive business environment. Additionally, ensure that all vendors complete a vendor registration or certification packet before any contract or purchase order is issued.

These extensive efforts to identify, train and assist MBE/WBE, as well as other diverse groups of potential vendors should result in a roster of vendors that maximizes diversity and is reasonably reflective of and inclusive of the local community.

VIII. CONSTRUCTION PROCUREMENT

The Sands is committed to securing bids for construction projects from local minority businesses. Our efforts in seeking out and including minority contractor and subcontractor participation during the initial casino build-out resulted in the successful completion of the project.

The plan for minority inclusion in any future construction projects will be to utilize the successful techniques and practices employed during the initial casino build-out and capitalize on the contractor, subcontractor and supplier relationships developed during this project. The following steps are critical as we attempt to carry this success forward to any future construction projects:

- Collaboration with construction managers who share our commitment to minority participation.
- Coordination with property-level and corporate purchasing departments as well as the Government Affairs Department in order to capitalize on their continuous search for qualified minority enterprises.
- Use of State of Pennsylvania, PA Gaming Control Board and other resources and databases to identify capable minority contractors and suppliers.
- Reaching out to the Pennsylvania Department of General Services to solicit assistance in locating minority owned construction companies and suppliers who were and are capable of handling projects of our size and scope.

- Continuation of specific procedures and processes that require construction managers to demonstrate efforts to identify minority contractors and suppliers before work is awarded.
- Requirements on the part of construction managers to track commitments to and dollars expended for minority contractors and suppliers.
- Coordination with construction managers to identify 2nd and 3rd tier subcontractor and supplier opportunities.
- Close coordination with construction managers to improve the onsite labor component of commitments made to minority contractors and suppliers.
- Periodic reporting of our minority commitment and fulfillment results to the Sands Casino Resort-Bethlehem Diversity Officer, the Pennsylvania Gaming Control Board and other involved parties.
