- 1 CHAIRMAN DECKER: Good morning, everyone --
- 2 or good afternoon. Sorry. It seems like tomorrow
- 3 morning. I'm Tad Decker. I'm Chairman of the
- 4 Pennsylvania Gaming Control Board.
- 5 I would like to welcome the Board and all
- 6 of you to this meeting. A quorum of the Board being
- 7 present, the meeting is now called to order. I would
- 8 like to note for the record that all of the
- 9 Commissioners are here, Mary Colins, Sanford Rivers,
- 10 Chip Marshall, Bill Conaboy, Jeff Coy, and Ken
- 11 McCabe. I reversed the order there. Also with us we
- 12 have Secretaries Dennis Wolff and Greg Fajt and
- 13 Treasurer Bob Casey. So we have a full complement
- 14 today.
- Would you please join me in the Pledge of
- 16 Allegiance.
- 17 (Pledge of Allegiance).
- 18 CHAIRMAN DECKER: Our first order of
- 19 business, as is the case in all of our meetings, is
- 20 to formally approve and adopt the minutes of our last
- 21 meeting.
- 22 May I have a motion from the Board
- 23 approving and adopting the minutes of the May 5th
- 24 meeting?

24

Ι

1	COMMISSIONER RIVERS: Second.		
2	CHAIRMAN DECKER: Any comment? All in		
3	favor, please indicate by saying aye.		
4	COMMISSIONERS: Aye.		
5	CHAIRMAN DECKER: The motion passes. The		
6	minutes of the last meeting are available at our		
7	website. I also note that this meeting is being		
8	recorded, again, as usual by a stenographer.		
9	Since our last meeting and it sounds like		
10	an old refrain but I guess since it's old business, I		
11	can say it this way, we have been working on another		
12	set of regulations, taking comments on the ones we've		
13	put out and Commissioner Colins will discuss that in		
14	detail.		
15	We've also been working on how we're going		
16	to be doing our background checks. We've been		
17	studying that issue very carefully and part of that		
18	is, as you know, we asked Pricewaterhouse Coopers to		
19	do a survey for us and to determine best practices		
20	way back when. I guess it was in December when we		
21	asked that, if I'm not mistaken, and they are not		
22	here today to report on that subject.		

We also have been interviewing lots and

lots of candidates for the various positions, at

- 1 other levels, particularly in the licensing
- 2 department.
- 3 So we've seen some people who we hope are
- 4 going to be able TO attract, who will actually be
- 5 handling the files and reviewing things, so in
- 6 addition to potential supervisors in those
- 7 departments.
- 8 We're hopeful that the decision of the
- 9 Supreme Court will be in the near term. I also want
- 10 to comment on that a bit, because people have come up
- 11 and asked me if I'm being critical, particularly in
- 12 what I have said before and at some other speeches
- 13 that I have made, that the Supreme Court is not
- 14 moving fast enough. It's anything but the truth
- 15 because the Supreme Court -- we were very
- 16 appreciative and I think most people in Pennsylvania
- 17 were appreciative that the Supreme Court took that
- 18 case and heard argument, expedited argument and heard
- 19 it in March.
- This is a complicated case. It takes time.
- 21 There are six Justices reviewing it and coming up
- 22 with one opinion. It takes a lot of time. If
- 23 anybody saw a recent program on the Supreme Court of

- 24 the United States, which was I believe on CSpan -- I
- 25 don't know why I was watching CSpan but I was

- 1 watching CSpan -- and it was fascinating to listen to
- 2 them talking about the complexities in dealing with
- 3 subjects in general, and particularly, in their case,
- 4 a number of very important cases.
- 5 I think in this situation, this is an
- 6 extremely important case for this Commonwealth. I am
- 7 not criticizing the Court for taking the time to
- 8 deliberate in an appropriate way.
- 9 I appreciate -- we all appreciate the fact
- 10 that they're moving with the proper amount of speed
- 11 in this case.
- 12 Okay. With that said, let's move on and
- 13 talk about regulations. I would like to -- I would
- 14 like to ask Commissioner Colins to give us an update
- 15 on a couple of things.
- One is she has been busy drafting the
- 17 regulations along with her Committee. The public
- 18 comment period for our first set of regulations
- 19 dealing with manufacturers and suppliers ended last
- 20 Friday.
- 21 So Mary, would you please discuss with us
- 22 where we stand in a regulatory process -- in the
- 23 regulation process, I should say.

- 24 COMMISSIONER DIGIACOMO COLINS: Thank you
- 25 very much, Chairman Decker.

- 1 The Board and the working group,
- 2 regulations working group, continue to undertake the
- 3 drafting of the temporary regulations, which are
- 4 going to govern licensing now of slot machines, slot
- 5 machine operators.
- As we do that, simultaneous with that we're
- 7 also receiving and reviewing the public comments that
- 8 have been received on the previous set of
- 9 regulations, on manufacturer and supplier
- 10 regulations.
- 11 The public comment period closed on May
- 12 13th. We were -- we've received much public comment.
- 13 There's been a tremendous amount of interest and a
- 14 tremendous amount of scrutiny of these regulations as
- 15 evidenced by the number of comments and the detail of
- 16 the comments.
- 17 The last day we were bombarded with reams
- 18 of paper and we are now cataloguing the comments and
- 19 getting a manageable grip on the content of the
- 20 comments, so that the Board may through the working
- 21 group review them and develop answers and responses
- 22 to relevant and pertinent and valuable comments that

- 23 we've received.
- It's been a learning experience for us and
- 25 it will continue to be. We've gotten good input and

- 1 feedback. I anticipate that feedback and input from
- 2 the public will continue as we go through this
- 3 lengthy and arduous regulation process.
- 4 We will attempt to consolidate the comment,
- 5 respond to it. Hopefully, we're picking, as a date,
- 6 May 27th as being the earliest possible date. Again,
- 7 that is not a guaranteed date.
- 8 It will depend on our ability, quite
- 9 frankly, to do a due justice to the comments that we
- 10 have received in our evaluation of them and our
- 11 ability to respond to them but that will be the
- 12 earliest possible date. That's our goal. Again, I'm
- 13 offering no guarantees. It's something we're
- 14 shooting for.
- Now, we have completed the regulations that
- 16 have to -- the temporary regulations that relate to
- 17 slot machine licenses.
- 18 These regulations, the draft will be posted
- 19 on our website today. These regulations address the
- 20 following subjects: General application and
- 21 licensing requirements for slot machine operators,
- 22 specific requirement for Category 1 slot machine

- 23 licenses, which pertain to the operators compliance
- 24 with the Horse Racing Commission and the Harness
- 25 Racing Commission's statutory requisites, the

- 1 procedures for obtaining the Category 1 license
- 2 through alternative licensing standards.
- 3 This process allows the Board to use an
- 4 abbreviated licensing process to license an applicant
- 5 who is licensed in another acceptable gaming
- 6 jurisdiction, procedures for obtaining a conditional
- 7 Category 1 license, which would allow the Board to
- 8 issue conditional slot machine licenses to Category 1
- 9 licensees for an 18-month period, the bond or letter
- 10 of credit specifications, which are rendered now into
- 11 regulation form, the public input and political
- 12 subdivision comment regulations, which address the
- 13 statutory requirement for political subdivision
- 14 comment; and also in addition to that, provide that
- 15 the Board will establish a protocol for conducting
- 16 public input hearings.
- 17 Those will be hearings conducted at
- 18 different locals around the state to fact find or
- 19 take input from the public at these hearings.
- 20 So it's a -- there will be fact finding
- 21 procedures, also, regulations dealing with compulsive

- 22 and problem gambling as a means of regulations that
- 23 require the establishment of plans to deal with
- 24 compulsive and problem gambling by the licensees.
- Now, these regulations will address the

- 1 standards of review in the application procedure for
- 2 the different forms of licensure.
- 3 Today's motion, which the Board will
- 4 undertake, will be to release these regulations and
- 5 to open them to public comment. It will be a 30-day
- 6 public comment period. It's not to be motion
- 7 construed as the Board's final approval of these
- 8 regulations but merely to set them out to the public
- 9 and open it up to comment for this set as well.
- 10 We will be continuing our ongoing drafting
- 11 of regulations. The next batch that we will consider
- 12 will be the Category 2s and the Category 3s. Those
- 13 are the licenses.
- 14 Category 2s are the five, freestanding
- 15 casino licenses. Category 3s are the two licenses to
- 16 be awarded to existing resorts. We will continue in
- 17 the exact same process that we have been trying to
- 18 establish.
- 19 Now, I'm going to ask our Director of
- 20 Communications, Nick Hays, to further discuss the
- 21 public comment process with everyone. Thank you.

- MR. HAYS: Thank you, Commissioner Colins,
- 23 Chairman Decker, and the rest of the Board Members
- 24 for this opportunity to present an update on the
- 25 first phase of the public comment program and to

- 1 introduce the second phase for your consideration.
- 2 Phase 1, as you know, cover regulations
- 3 governing manufacturers and suppliers of gaming
- 4 equipment, as well as regulations governing general
- 5 administration.
- 6 Licensing manufacturers and suppliers is,
- 7 of course, a key part of the overall licensing
- 8 process because the Board cannot begin to license
- 9 gaming facilities themselves until at least 90 days
- 10 after its begun licensing the manufacturers and
- 11 suppliers of the equipment. Phase 2 will cover the
- 12 areas that Commissioner Colins discussed just a
- 13 moment ago.
- 14 To recap Phase 1, last Friday, May 13th,
- 15 the Board's public comment period on the draft
- 16 manufacturer, supplier, and administrative
- 17 regulations ended.
- 18 Staff is cataloguing all of the comments
- 19 received in preparation for your review. The
- 20 comments show significant interest in the regulations

- 21 the Board is preparing and came from a wide variety
- 22 of sources.
- Just to give you some sense of the volume
- 24 that we're talking about, this is a set -- a full set
- 25 of the comments. It is 33 separate submissions. It

- 1 totals 379 pages.
- 2 Some of it is in extremely technical
- 3 detail. So I think you may have your work cut out
- 4 for you in the next couple of weeks.
- 5 Now that the comments have been received,
- 6 the Board's next step is to review and respond to
- 7 them. The comments and responses will all be made
- 8 available to the public via the website or direct
- 9 purchase through the Board for a price to be
- 10 determined no sooner than Friday, May the 27th.
- 11 It could take longer depending on how long
- 12 it takes you all and the working group to do your
- 13 review and response.
- 14 For anybody who has -- who has forgotten
- 15 since last time, that web address is
- www.pgcb.state.pa.us.
- 17 The second phase of the regulations while
- 18 work is continuing on this first batch, we're ready
- 19 to propose a second public comment period on the new

- 20 set of regulations that Commissioner Colins just
- 21 discussed.
- 22 When I was with you a month ago, I pointed
- 23 out that a project of this sort has three phases,
- 24 three steps really to it.
- 25 The first is making sure that the people

- 1 have access to the draft so that they can comment on
- 2 it. Second is gathering and organizing the material
- 3 to present it in a fashion that is most usable to
- 4 you. The third is making sure that the public has
- 5 access to the comments and eventually -- to the
- 6 comments and to the eventual responses.
- 7 So assuming you move forward and approve
- 8 the next set of draft regulations to be put out for
- 9 comment, here is what will happen.
- 10 First, we will put it on the website
- 11 immediately. The second, the draft will be published
- 12 in the Saturday, May 28th, 2005 issue of the
- 13 Pennsylvania Bulletin.
- 14 The third, anyone who wants to obtain a
- 15 printed copy may request it by mailing the PGCB a
- 16 certified check for \$10 to cover copying, staff time,
- 17 and mailing charges. We will then send them off a
- 18 hard copy.
- 19 The address there is PGCB, Post Office Box

- 20 69060, Harrisburg, Pennsylvania 17106-9060. They
- 21 should also put on the envelope, attention
- 22 regulations. That should make it a little easier to
- 23 sort through that mail and the checks should be made
- 24 out to the Commonwealth of Pennsylvania, not to the
- 25 Gaming Control Board.

- 1 Let me also note that all of these
- 2 instructions are going to get posted on the website
- 3 and will be in today's press release assuming you,
- 4 again, agree to go forward.
- 5 The approval of the posting will mark the
- 6 beginning of a 30-day public comment period. To be
- 7 considered, people's submissions must be postmarked
- 8 no later than Friday, June the 17th, 2005.
- 9 For consistency, we're, again, going to
- 10 require that every comment be submitted by US Mail.
- 11 Let me repeat the address. PGCB Box 69060,
- 12 Harrisburg, Pennsylvania 17105-9060.
- 13 There is certain information that must be
- 14 contained in every submission. For the record, that
- 15 information is the name of the person submitting the
- 16 comment and the name of any organization on whose
- 17 behalf he or she is commenting, the person or
- 18 organization's mailing address, a telephone number

- 19 and e-mail address that we can use to verify the
- 20 source of the information, and the county in which
- 21 the person or organization is based.
- 22 Finally, they need to include the section
- 23 number of the regulations that the comment addresses
- 24 or if there is no section number, the general topic
- 25 of the comment.

- 1 As was the case with the first set of
- 2 regulations, except for the mailing addresses, phone
- 3 numbers, and e-mail addresses, all of this
- 4 information that is provided with the submissions
- 5 will be made public when the comments are ultimately
- 6 released.
- 7 Once this comment period closes in 30 days,
- 8 the Board will, again, have to begin to respond. At
- 9 that point, the staff will publish the comments and
- 10 the Board's responses once they're ready and, again,
- 11 provide hard copies to people who would rather get it
- 12 in its entirety in paper rather than via the website.
- 13 Finally, before I finish, just let me,
- 14 again, thank a couple of people who have been
- 15 instrumental making this process move forward. From
- 16 the Gaming Control Board offices, April Fegley and
- 17 Cheryl Posavec have been a tremendous help; and from

- 18 the Department of Revenue, Tom VanKirk and his staff
- 19 from the IT staff have been the ones making sure that
- 20 all of this gets put on the web and that people have
- 21 been able to download it.
- We haven't had any complaints about
- 23 accessibility to the material that was published
- 24 before, and I hope we can continue that street with
- 25 their help.

- 1 Now, if there's any questions, I will be
- 2 glad to help out.
- 3 CHAIRMAN DECKER: Any questions from the
- 4 Board?
- 5 Thank you, Mary and Nick, and thank you to
- 6 the team of individuals. Susan, Michelle, and I keep
- 7 calling them the volunteers from the legislature,
- 8 have been extremely helpful in getting this done.
- 9 There's been healthy debate on a lot of
- 10 issues and, in fact, even the ability of this
- 11 collective group to convince me that I was wrong,
- 12 which is not so easy in my own mind anyway.
- 13 They have done a great job and we
- 14 appreciate it. We look forward to having them
- 15 participate with us and getting these rounds of
- 16 regulations completed.
- 17 As Nick has stated, the first round of

- 18 comments and the Board's responses will be available
- on our website as soon as the end of the month.
- 20 Again, I want to emphasize this because I
- 21 had forgotten this myself. It's got to be US mail.
- We next need a motion today from the Board
- 23 concerning this next set of proposed regulations.
- 24 Can I have a motion to post the draft regulations as
- 25 proposed on the Board website and accept public

- 1 comment, again, via US mail until June 17th, 2005 and
- 2 that in order to be considered, all mail must be
- 3 postmarked by that date?
- 4 COMMISSIONER CONABOY: So moved.
- 5 COMMISSIONER DIGIACOMO COLINS: Second.
- 6 CHAIRMAN DECKER: Okay. Are there any
- 7 questions about any of this today?
- 8 Hearing none, all those in favor, please
- 9 indicate by saying aye.
- 10 COMMISSIONERS: Aye.
- 11 CHAIRMAN DECKER: Anyone opposed?
- 12 It passes unanimously.
- Our final agenda item this afternoon is to
- 14 hear from representatives of Pricewaterhouse Coopers,
- 15 which has been serving as a consultant to the Board.
- We have tasked PwC with examining so-called

- 17 best practices for how other jurisdictions carry out
- 18 investigation, enforcement, and surveillance
- 19 activities and also I would add security issues.
- 20 Mike French and Sharon Lewis will share
- 21 with us their results of their work to date. Thank
- 22 you.
- MR. FRENCH: Thank you, Chairman Decker,
- 24 and good afternoon. At the request of the
- 25 Pennsylvania Gaming Controlling Board --

- 1 CHAIRMAN DECKER: Mike, is that on?
- 2 MR. FRENCH: I think it is now, right?
- 3 I'll start again. Good afternoon. At the request of
- 4 the Pennsylvania Gaming Control Board,
- 5 Pricewaterhouse Coopers identified nine jurisdictions
- 6 to conduct detailed research -- as I find my glass --
- 7 on organizational structure, background
- 8 investigations, security, surveillance enforcement,
- 9 and internal controls.
- 10 We brought up this earlier at an earlier
- 11 meeting when we put together our original
- 12 questionnaire.
- 13 In recapping our rationale for selecting
- 14 these jurisdictions was as follows: New Jersey,
- 15 Delaware, and West Virginia were primarily chosen due
- 16 to their proximity to the state of Pennsylvania.

- 17 Delaware and West Virginia were selected
- 18 because they have a Central Computer System. Iowa
- 19 and Missouri were selected at the recommendation of
- 20 Pennsylvania State Police, Office of Gaming
- 21 Enforcement.
- 22 Ontario and Michigan were included because
- 23 of the experience that PwC has in these two
- 24 jurisdictions. Mississippi was chosen because its
- 25 casinos are geographically dispersed, as will be the

- 1 casino venues in Pennsylvania.
- 2 Nevada was selected because it's the
- 3 largest, most established jurisdiction in North
- 4 America.
- 5 As I said, PwC developed a questionnaire,
- 6 which was shared with the Pennsylvania Gaming Control
- 7 Board and Pennsylvania State Police.
- 8 Using that questionnaire, PwC performed
- 9 literature searches and conducted in-depth interviews
- 10 with representatives in 9 of the 12 major North
- 11 American commercial gaming jurisdictions. They were
- 12 deemed the selected jurisdictions.
- 13 Given the highly detailed nature of our
- 14 questions, we typically spoke to department heads
- 15 with expertise in areas including organizational

- 16 structure, background investigations, security,
- 17 surveillance enforcement, and internal controls.
- 18 Through this process, we interviewed 24
- 19 individuals from these nine jurisdictions. Some of
- 20 them were face to face while others were conducted
- 21 telephonically.
- During the course of our research, we had
- 23 to have numerous follow-up calls. We gained new
- 24 information. We expanded the scope of our work
- 25 somewhat. We spoke with other individuals in other

- 1 departments to get the information and to get it to
- 2 be complete.
- 3 We researched thousands of pages of
- 4 literature on the subject. We compiled hundreds of
- 5 pages of notes.
- To preserve the confidentiality at the
- 7 request of the respondents, we have presented the
- 8 information on an aggregated basis.
- 9 I would also add that this is an
- 10 industry-wide best practices assessment, something
- 11 that our firm has done, you know, many times before.
- 12 Of the nine jurisdictions, some may be
- 13 deemed more comparable or applicable to the gaming
- 14 environment envisioned in Pennsylvania than others.
- 15 So with that, Sharon Lewis, my colleague to

- 16 my right, she led the research effort, led our team.
- 17 I participated in a number of the jurisdictions with
- 18 her in face-to-face meetings. Sharon and our group
- 19 -- she participated in all nine jurisdictions. So
- 20 I'm going to ask her to walk through the results of
- 21 our research.
- MS. LEWIS: Good afternoon. For the
- 23 record, my name is Sharon Lewis. I'm a gaming
- 24 consultant with Pricewaterhouse Coopers.
- 25 Pricewaterhouse Coopers has prepared a

- 1 summary of trends that emerged as a result of our
- 2 analysis, which I would like to present to you today.
- 3 Specifically, PwC found that eight of the
- 4 selected jurisdictions have an office at the gaming
- 5 facilities. We found that these offices are
- 6 primarily used for enforcement and surveillance.
- 7 Four of the selected jurisdictions only
- 8 have one licensing location. Fingerprinting and
- 9 photography are typically performed at these
- 10 locations. One of the jurisdictions also has a
- 11 mobile fingerprinting machine, which they actually
- 12 take out to the facilities on occasion.
- 13 In the selected jurisdictions that have
- 14 Central Computer Systems, the final gaming revenue

- 15 count is determined by the Central Computer System.
- In a majority of the selected
- 17 jurisdictions, a division of the Gaming Commission,
- 18 typically the BIE, performs the background
- 19 investigations.
- In a majority of the selected
- 21 jurisdictions, the same person is typically not
- 22 responsible for both investigations and enforcement
- 23 responsibilities.
- 24 All of the selected jurisdictions perform
- 25 different levels of investigation for different

- 1 licensed types.
- 2 I'm going to use some of the terms
- 3 liberally here; but just for clarification while
- 4 speaking, for non-supervisory gaming employees, a
- 5 majority of the selected jurisdictions investigate
- 6 the applicant's criminal background and do not
- 7 perform a personal interview.
- 8 The majority of the selected jurisdictions
- 9 also perform a financial investigation on applicants
- 10 seeking an owner, director, officer, general manager,
- 11 or department head license, as well as casino
- 12 operators and/or manufacturers and suppliers.
- 13 We took a look at the estimated turnaround

- 14 times for background investigations. We found that
- 15 they varied by state.
- 16 For non-supervisory gaming employees, they
- 17 typically take approximately one week to three
- 18 months. For owners, directors, and officers, general
- 19 managers, and other department heads, that's
- 20 approximately three to five months. For casino
- 21 operators, it's approximately 6 to 12 months.
- 22 Suppliers and/or manufacturer licenses, also, again,
- 23 approximately 6 to 12 months.
- In the select jurisdictions, criminal
- 25 background investigations typically involve

- 1 fingerprinting, intelligence checks, and credit
- 2 checks. The majority of the selected jurisdictions
- 3 do not have an intelligence unit for gaming.
- 4 The majority of the selected jurisdictions
- 5 do not require drug testing as a part of the
- 6 background investigations.
- 7 All information developed through
- 8 investigations is being shared with the Gaming
- 9 Regulatory Commissions, with the exception of two
- 10 jurisdictions where source and non-factual
- 11 information are not shared. Other than that, all
- 12 information is shared.

- 13 When conducting background investigations,
- 14 the majority of the selected jurisdictions do the
- 15 following:
- 16 They work with the Federal Bureau of
- 17 Investigation. They search national and State Police
- 18 database, and they utilize Lexus.
- 19 When conducting international
- 20 investigations, several of the selected jurisdictions
- 21 stated that they may hire consultants, foreign
- 22 investigators and interpreters where appropriate.
- With respect to license renewals, the
- 24 majority of the jurisdictions use an abbreviated
- 25 reinvestigation process.

1 A majority of the selected jurisdictions

- 2 allow a conditional license to be issued for the
- 3 following types of licensees: Owners, directors,
- 4 officers, general managers, and other department
- 5 heads, as well as non-supervisory gaming employees.
- 6 The majority of the selected jurisdictions
- 7 do not allow a conditional license to be issued for
- 8 gaming casino operators.
- 9 All nine of the selected jurisdictions
- 10 allow applicants to withdraw their license prior to
- 11 being officially denied. However, three of these
- 12 jurisdictions require regulatory approval prior to

- 13 withdrawal.
- 14 Security in each of the nine jurisdictions
- 15 surveyed is the responsibility of the casino
- 16 operators and not the regulatory authority. The
- 17 respective gaming operators do regulate -- the
- 18 respective gaming operators do monitor security and
- 19 audit the security function of the operators in order
- 20 to ensure compliance with the state's gaming rules
- 21 and regulations.
- In eight of the selected jurisdictions, the
- 23 Commission does not dictate a minimum number of
- 24 security personnel per facility.
- When we asked about typical security

1 incidences, the ones that were cited were purse

2 snatching, disorderly conduct, counterfeit, and coin

- 3 bucket theft.
- 4 In a majority of the selected
- 5 jurisdictions, the State Police are allowed to carry
- 6 guns on the casino floor. However, security
- 7 personnel are not.
- 8 We found that the majority of casinos have
- 9 holding cells. In a majority of the selected
- 10 jurisdictions, the Commission requires the casino
- 11 operator security department to have a separate

- 12 reporting structure from the casino operator's
- 13 surveillance department.
- In fact, one of the jurisdictions even
- 15 requires security and surveillance to be physically
- 16 separated by a wall.
- 17 In a majority of the selected
- 18 jurisdictions, an on-site Commission only
- 19 surveillance room is required at each gaming
- 20 facility. Again, this would be over and above the
- 21 casino operator's surveillance facilities.
- The minimum retention period for
- 23 surveillance tapes ranges from 7 to 30 days in
- 24 selected jurisdictions. Several of the jurisdictions
- 25 do require a longer retention period in areas of the

- 1 casino, such as the cage, count and drop areas, and
- 2 if there has been a detention period.
- 3 However, we found that the majority of the
- 4 selected jurisdictions require a minimum retention
- 5 period of 7 days unless there's been an incident.
- 6 Based upon our interviews, many of the
- 7 selected jurisdictions are considering replacing
- 8 videotapes with recording devices, with digital
- 9 recording devices.
- In the majority of the selected

- 11 jurisdictions, the Commission compiles the exclusion
- 12 list and the exclusion list would include felons,
- 13 organized crime members, and slot sheets.
- In the majority of the selected
- 15 jurisdictions, individuals -- can you strike that?
- In many of the selected jurisdictions,
- 17 individuals who have placed themselves on the self
- 18 exclusion list are charged with trespassing if they
- 19 are later identified in a gaming facility.
- 20 While the primary responsibility for casino
- 21 surveillance rests with the casino operators
- 22 themselves, several jurisdictions have BIE and
- 23 compliance personnel conduct additional surveillance
- 24 and surveillance inspections.
- 25 A majority of the selected jurisdictions do

- 1 not require BIE or State Police staff to be on-site
- 2 whenever gaming is occurring.
- 3 State Police require a warrant in the
- 4 majority of the selected jurisdictions to get full
- 5 access to the casino facilities.
- 6 Commissions in a majority of the selected
- 7 jurisdictions have full access to all areas of the
- 8 gaming facility and the surveillance tapes without a
- 9 warrant.
- 10 For gaming machines with ticket in, ticket

- 11 out technology, ticket expiration tends to vary quite
- 12 a bit by jurisdiction.
- We found that there's a range between ten
- 14 days and one year. In one jurisdiction, we found
- 15 that the tickets never expire.
- Depending upon the jurisdiction, gaming
- 17 revenues are reported to the Board instantaneously,
- 18 daily, weekly, or monthly. Only one of the selected
- 19 jurisdictions requires a Commission presence in the
- 20 count room.
- In four of the selected jurisdictions, the
- 22 audit branch is responsible for reviewing and audit
- 23 and internal controls.
- In a majority of the selected
- 25 jurisdictions, gaming facilities are required to hire

- 1 external auditors to ensure non-financial, internal
- 2 processes are followed.
- 3 In the majority of the selected
- 4 jurisdictions, Commissions require the facilities to
- 5 report internal control exceptions.
- 6 During our survey, we found that to
- 7 maximize efficiencies, several of the jurisdictions
- 8 emphasized that it's important to implement
- 9 coordinating mechanism and clearly delineate

- 10 responsibilities between the BIE and the PSP.
- 11 State Police are responsible for performing
- 12 criminal gaming enforcement in a majority of the
- 13 selected jurisdictions, which includes arresting and
- 14 prosecuting individuals that violate the law at the
- 15 gaming facilities.
- To put the analysis by jurisdiction on a
- 17 comparable basis, PwC calculated the number of gaming
- 18 positions per officer in the selected jurisdictions
- 19 which use State Police for gaming enforcement.
- The average number of gaming positions per
- 21 State Police officer was 488. The high end of the
- 22 range was 1,066, while the low end of the range was
- 23 181.
- 24 In the selected jurisdictions where the BIE
- 25 performs gaming enforcement, the average number of

- 1 gaming positions per BIE officer was 1,100; with a
- 2 high end of that range 2,657, and a low end of the
- 3 range 269.
- 4 For analytical purposes, aggregating the
- 5 number of gaming enforcement, State Police officers
- 6 and BIE officers results in average number of gaming
- 7 positions per State Police officer and BIE officer of
- 8 792. The high end of the range was 2,657, while the
- 9 low end of the range was 158.

- 10 That concludes my presentation. Thank you
- 11 very much. If you have questions, you're welcome to
- 12 ask for them.
- 13 CHAIRMAN DECKER: Let me start with one and
- 14 then we'll go right down the list. We're talking
- 15 about staffing, right at the end there, Sharon?
- MS. LEWIS: Right.
- 17 CHAIRMAN DECKER: Does the Central Computer
- 18 System have any effect upon the levels of staffing
- 19 when we're looking at these average and medium
- 20 numbers --
- 21 MS. LEWIS: We certainly feel --
- 22 CHAIRMAN DECKER: -- in those states where
- 23 they have a Central Control System?
- 24 MS. LEWIS: Correct. Correct. Let's step
- 25 back for a second just to kind of walk through why it

- 1 is that the Central Computer System might have an
- 2 impact. The bottom line being that, yes, it should
- 3 help to reduce the staffing.
- 4 The reason for that being, the Central
- 5 Computer's role is to really gather data from each of
- 6 the slot machines and then to aggregate it. That
- 7 really facilitates the accounting and the internal
- 8 control process at the regulatory body levels. It

- 9 makes it a lot easier for the regulators.
- 10 In the jurisdictions where they had Central
- 11 Control Systems, by really boosting that audit and
- 12 internal control function, it helps to reduce the
- 13 staff level that is required.
- 14 CHAIRMAN DECKER: Jeff?
- 15 COMMISSIONER COY: Thank you, Mr. Chairman.
- In your statistical analysis, you talked
- 17 about gaming positions per officer. Is that a
- 18 machine, a gaming position?
- 19 MS. LEWIS: A gaming position is defined as
- 20 the following: One slot machine or if it's a table
- 21 game, there are six seats at each table. So if you
- 22 have one table game, with six seats and one slot
- 23 machine, that would be seven gaming positions.
- 24 CHAIRMAN DECKER: So obviously, table games
- 25 are far more complex in terms of how people apply

- 1 that definition?
- 2 MS. LEWIS: Correct.
- 3 CHAIRMAN DECKER: Okay.
- 4 MR. FRENCH: There's obviously a lot more
- 5 interaction in a situation where you have table games
- 6 and you have, you know, players playing with
- 7 employees involved.
- 8 COMMISSIONER COY: Okay.

- 9 CHAIRMAN DECKER: Chip?
- 10 COMMISSIONER MARSHALL: Thank you,
- 11 Mr. Chairman.
- Back on page 8 of your presentation, you
- 13 make the statement that the majority of the selected
- 14 jurisdictions do not allow a conditional license to
- 15 be issued to gaming entities. Can you go into that
- in a little more detail, please?
- MS. LEWIS: Sure. Specifically, we did not
- 18 specifically ask the question as to why jurisdictions
- 19 do not allow conditional licenses for casino gaming
- 20 operators where that is, in fact, the case.
- 21 However, you know, if one were to reason
- 22 out why it is that that occurs, there's an awful lot
- 23 of investment that goes into a full scale casino
- 24 operation.
- 25 It's also made a lot more difficult to get

- funding for that investment if you're on a
- 2 conditional basis, given that the financier wants to
- 3 see you have the permanent license before they're
- 4 most likely going to lend to you.
- 5 Secondly, there's a lot of jobs that are on
- 6 the line. Before you actually issue a conditional
- 7 license, you have to really think about the impact to

- 8 your economy, as well as to the individuals that are
- 9 involved and to the people who have invested money.
- 10 Most likely, you're going to want to have
- 11 pretty much everything in place before you go ahead
- 12 and issue a license.
- 13 COMMISSIONER MARSHALL: But you were
- 14 looking at all of the mature jurisdictions?
- MS. LEWIS: That's correct. We were
- 16 looking at mature jurisdictions.
- 17 COMMISSIONER MARSHALL: So can you -- I
- 18 guess reasoning it out, at some point if we're going
- 19 to start, like Pennsylvania has to jump off.
- MS. LEWIS: Right. Correct.
- 21 COMMISSIONER MARSHALL: Do you see anything
- 22 wrong with us embracing the notion at least in the
- 23 beginning of conditional licenses?
- MS. LEWIS: I don't know how comfortable we
- 25 are necessarily passing judgment.

- 1 $\mbox{MR. FRENCH:}$ It would depend on a lot of
- 2 factors. One of the principal factors would be the
- 3 history and the financial suitability of the
- 4 applicant and whether or not they had a track record,
- 5 whether or not they certainly had been --
- 6 CHAIRMAN DECKER: No pun intended.
- 7 COMMISSIONER MARSHALL: When did PwC become

- 8 a law firm?
- 9 MR. FRENCH: Whether or not they had
- 10 obviously been licensed in other jurisdictions,
- 11 factors such as that nature.
- 12 COMMISSIONER MARSHALL: So I understand all
- 13 of that, but that sort of goes into the means. We
- 14 need to get this thing up and running at some point
- 15 so you can either -- I guess you have three sides.
- 16 You can either start with no regulations. You can
- 17 wait until everything is completed. Then you got
- 18 this long ramp up period where nothing happens or
- 19 presumably, you try to find something in the middle.
- One of the issues, obviously, that we're
- 21 wrestling with is when will we start and if so, how
- 22 will we start.
- I know at least in my mind, as I kind of go
- 24 through all of this, the notion of some kind of a
- 25 conditional licensing with a notion or an intent to

- 1 sort of evolve into a permanent position -- it may be
- 2 that the economic market just says to your point,
- 3 Sharon, we're not going to bother. We can't finance
- 4 a conditional license. We're not putting up our own
- 5 cash.
- 6 Leaving all of that aside, if we were

- 7 relatively financially rigorous in terms of the
- 8 protections, it seems to me or maybe I should say, it
- 9 would be helpful, Mike and Sharon, if you could take
- 10 a look at how other places got up and running.
- 11 CHAIRMAN DECKER: I think Mike was involved
- 12 in at least one state that I know about. I don't
- 13 want to put words in your mouth. One of the things
- 14 that I believe that Sharon and Mike were addressing a
- 15 few minutes ago is the issue of some people after
- 16 they had everything up and running with conditions
- 17 were attached, the operators basically thumbing their
- 18 nose at the regulatory bodies and saying, we're not
- 19 going to implement in the timing that we set these
- 20 issues.
- 21 I, for one, would look very negatively upon
- 22 some actions like that. I would have no problem in
- 23 voting to revoke their license or suspend, even if it
- 24 involves layoffs and everything else. It wouldn't
- 25 bother me a bit. I feel sorry for the people that

- 1 got hired. It wouldn't bother me a bit to yank that
- 2 out from under them.
- 3 COMMISSIONER MARSHALL: Let me just set the
- 4 record straight. I'm not suggesting that we sort of
- 5 get in the game and then kind of catch up later.
- 6 CHAIRMAN DECKER: I know you're not.

- 7 COMMISSIONER MARSHALL: I'm talking more
- 8 the sort of ramping up process where there is some
- 9 kind, I guess, whatever the cross elastic point is
- 10 between when we have enough protection and enough
- 11 information and yet haven't dotted every I and
- 12 crossed every T.
- Obviously, I would think that we would be
- 14 pretty rigorous in terms of our financial
- 15 expectations.
- 16 So to the Chairman's point, I think we
- 17 could set it up so there would be a pretty big hammer
- 18 in the event somebody decided to -- I don't think any
- 19 of us want a repeat of Detroit or any of the other
- 20 places, where there was all of this promise and then
- 21 everything got up and running and then it kind of
- 22 stopped.
- 23 COMMISSIONER DIGIACOMO COLINS: I have one
- 24 question.
- 25 CHAIRMAN DECKER: Go ahead, Mary, and then

- 1 Mike and Sharon will respond.
- 2 COMMISSIONER DIGIACOMO COLINS: I'm sorry.
- 3 I wanted to know when you talk about reviewing the
- 4 jurisdictions that do not allow conditional license,
- 5 do you mean that by Statute, conditional licensing is

- 6 not for -- it's prohibited by their Statute or that
- 7 it is their regulatory policy?
- 8 MS. LEWIS: In --
- 9 COMMISSIONER DIGIACOMO COLINS: I ask this
- 10 because our Statute specifically provides for
- 11 conditional licensing. I would have to surmise that
- 12 the purpose is to help us in this ramp up period to
- 13 allow the Board to have the ability to conditionally
- 14 license and have that simultaneously coincide with
- our ability to regulate, control, and oversee.
- 16 My question directly is do those
- 17 jurisdictions have statutes that allowed for
- 18 conditional licensing?
- 19 MS. LEWIS: My recollection is that in some
- 20 of the jurisdictions it was by Statute that they
- 21 wouldn't. In other jurisdictions it was by a matter
- 22 of procedure that they would not. It was a mixture.
- 23 Some of the insight that we did gain from
- 24 our interview process was that in the event you are
- 25 going to revoke a license, it's important from the

- 1 Board's perspective to make sure that the burden of
- 2 proof is at the applicant level and not at the Board
- 3 level.
- In the event that the burden of proof is
- 5 shifted to the Board, it can become a very long and

- 6 drawn out process if you do have to go in and revoke
- 7 a license.
- 8 COMMISSIONER DiGIACOMO COLINS: That's a
- 9 good point.
- 10 COMMISSIONER MARSHALL: Yeah. I'm sorry.
- 11 CHAIRMAN DECKER: No, please. Go ahead.
- 12 COMMISSIONER MARSHALL: I think for
- 13 purposes of clarification, we would probably need to
- 14 come up at least among the ten of us with a sort of
- 15 working definition of a conditional license versus a
- 16 permanent license with conditions versus some other
- 17 kind of hybrid.
- I mean, in my mind, it's just at some point
- 19 where, I guess, as I said before, a conditional
- 20 license would be one where you're far enough along
- 21 the stream that we feel comfortable allowing you or
- 22 allowing an operator to begin to commence operations
- 23 with all the attendant financial responsibilities and
- 24 obligations that go along with that and yet, being
- 25 able to hold out things.

- 1 At this point, I'm just speculating that
- 2 somebody had a permanent facility that might take two
- 3 years to construct, I don't know that we want to wait
- 4 necessarily for them, to wait two years to begin to

- 5 operate. I say this nothing more than raising the
- 6 issue. I don't know that I've come up with a --
- 7 CHAIRMAN DECKER: And your point about
- 8 financing is extremely important. Mike, do you or
- 9 Sharon want to say something about this?
- 10 MS. LEWIS: I would also concur with you in
- 11 that, you know, conditional probably does need to be
- 12 defined in terms of what your comfort level is, maybe
- 13 you don't have everything done but you got the things
- 14 that you feel critical done to approve someone; and
- 15 also issuing a conditional license to someone that is
- 16 already licensed in another jurisdiction is, you
- 17 know, very different from issuing to someone who is a
- 18 brand new operator.
- 19 CHAIRMAN DECKER: That was my next
- 20 question. It does make a big difference.
- 21 MR. FRENCH: And I also think that it's in
- 22 the Statute. I think that it might make some sense.
- 23 We just were collecting information on best practices
- 24 here. It might make some sense to look at the
- 25 protocol that has occurred where there has been a

- successful rollover of conditional licenses and see
- 2 what work steps took place and what have to be met,
- 3 as well as what options have so-called hammer

- 4 possibly and summarize that for the Board.
- 5 CHAIRMAN DECKER: Ken?
- 6 COMMISSIONER McCABE: I have a few
- 7 questions. First, we'll go back to the gaming
- 8 position ratio to BIE, State Police. Did you take
- 9 into consideration the geographic dispersion of the
- 10 casinos when you were figuring that out?
- 11 CHAIRMAN DECKER: To ask it different,
- 12 would it make it -- a dispersion that we're going to
- 13 have to make it more difficult for some other
- 14 jurisdiction where they're more centralized in terms
- 15 of location?
- MR. FRENCH: In this sample, we had full
- 17 service gaming facilities, jurisdictions. We had,
- 18 you know, jurisdictions that were consolidated. We
- 19 had jurisdictions that -- one specific jurisdiction
- 20 where the casino venues were more spread out amongst
- 21 the state, as will be the case in Pennsylvania.
- I certainly think that particularly, you
- 23 know, in the initial phases and we didn't ask this
- 24 question but I certainly think that the challenges in
- 25 Pennsylvania will be different, meaning that the

- 1 staffing levels will have to be such that it
- 2 recognizes the fact that, you know, there's a large

- 3 distance between the various casino venues.
- 4 COMMISSIONER McCABE: Did you look at or do
- 5 you have an answer to based on the number of BIE or
- 6 State Police how many supervisory people per numbers
- 7 that they had to supervise? Did you look at that at
- 8 all? How many supervisors --
- 9 MS. LEWIS: The number of supervisors is
- 10 built into the number that we gave you with respect
- 11 to each of the jurisdictions.
- 12 We did in certain jurisdictions have people
- 13 tell us how many of those were supervisory versus
- 14 non-supervisory, but we did not specifically ask that
- 15 question across all jurisdictions, but it is included
- 16 in the number.
- 17 COMMISSIONER McCABE: Did you have a feel
- 18 for is it one supervisor per every ten; or, again, is
- 19 there other factors that are played into that?
- MR. FRENCH: I think it would be hard,
- 21 Commissioner McCabe, to give you a specific answer on
- 22 that. We did not bifurcate the levels of the
- 23 officers that were on the premises, you know, so I
- 24 don't think we really answered that.
- 25 COMMISSIONER McCABE: Okay. In the BIE

- 1 equivalence that you looked at, do they have limited
- 2 law enforcement investigating powers? Do all of

- 3 them?
- 4 MS. LEWIS: All of them -- not all of them.
- 5 Some of them will.
- 6 COMMISSIONER McCABE: Okay. When you say
- 7 that some of these backgrounds were possibly
- 8 bifurcated where they use consultants or
- 9 investigators or interpreters, how is that
- 10 information all shared? How did that information
- 11 flow up to the Commission?
- MS. LEWIS: Basically, we found that
- 13 information regardless of whether it was an
- 14 investigation in state or an investigation out of
- 15 state or investigation out of the country, that that
- 16 information is shared.
- 17 The exception we found was that non-factual
- 18 information, one jurisdiction was specifically noted
- 19 as not being shared. Certain sources were not shared
- 20 in another jurisdiction. Other than that, all of
- 21 that information basically flowed through.
- 22 COMMISSIONER McCABE: Okay.
- 23 COMMISSIONER RIVERS: Mr. Chairman?
- 24 CHAIRMAN DECKER: Please, go ahead.
- 25 COMMISSIONER RIVERS: In your research as

- 2 renewal practice at all?
- 3 MS. LEWIS: Yes, we did. The specific
- 4 question that we were trying to get at was when a
- 5 license is reviewed in a jurisdiction, do you go
- 6 through a full-blown investigation again or do you
- 7 have an abbreviation with respect to your process.
- 8 The majority of jurisdictions, they do an
- 9 abbreviation.
- 10 COMMISSIONER RIVERS: Can you talk about
- 11 the time limits involved? How often do they go
- 12 through the renewal process?
- 13 MS. LEWIS: The renewal process varies
- 14 quite widely by jurisdiction. I don't know that
- 15 there's any consistency in terms of what we found.
- 16 It varies anywhere from one year to a couple of
- 17 years.
- 18 CHAIRMAN DECKER: When they do it every
- 19 year, do they do it in great depth?
- 20 MS. LEWIS: Typically, when they're doing
- 21 it on that kind of basis, no, they're not doing it in
- 22 great depth.
- Even the longer periods are not doing it in
- 24 great depth. They try to stay on top of it by, you
- 25 know, making sure that they keep track of what is

- 1 happening, if someone does get an arrest that they
- 2 see it.
- 3 People are also -- it's their
- 4 responsibility to report it if there has been an
- 5 incident; and, you know, in certain jurisdictions,
- 6 people are assigned to every six months do a review
- 7 but it tends to be abbreviated.
- 8 COMMISSIONER RIVERS: So they're monitoring
- 9 the number of incidents that take place to determine
- 10 the depth of the review?
- 11 MS. LEWIS: That's correct.
- 12 COMMISSIONER McCABE: I have another
- 13 question now about the holding cells and security and
- 14 then the relationship with the local jurisdictional
- 15 police.
- 16 Your report shows that typically there
- 17 aren't State Police or BIE people 24/7 at these
- 18 casinos?
- 19 MS. LEWIS: That's correct.
- 20 COMMISSIONER McCABE: If something happens
- 21 there, purse snatching, disorderly conduct, who
- 22 handles that? Do the security people handle that and
- 23 do they have the right and the authority then to put
- 24 these people in a holding cell or do they hold them
- 25 on-site until the State Police, BIE respond and then

1 they have the authority to put them in the holding

- 2 cell and wait for the paddy wagon to come? How is
- 3 that process?
- 4 MS. LEWIS: The process varies somewhat by
- 5 jurisdiction. What I would say is that the security
- 6 in all jurisdictions is handled by the casino
- 7 operator's security force.
- 8 It depends upon who spots the incident. It
- 9 depends on what type of incident it is. If the
- 10 incident is spotted by someone in the security
- 11 personnel, in most situations, if a police officer is
- 12 present, they could report it to the police officer.
- 13 If a police officer is not present and it's a gaming
- 14 crime, they could call them in. If it's a non-gaming
- 15 crime, they could call the local police.
- 16 COMMISSIONER McCABE: Did you look at what
- 17 kind of MOUs, memorandums of understanding, that they
- 18 have, the BIE, the State Police, with the local
- 19 jurisdictions? Do they have one? Who handles what?
- 20 MS. LEWIS: I did not -- there were
- 21 situations that we talked to jurisdictions where they
- 22 had MOUs; but typically, the MOUs that we were
- 23 talking about were would it apply to an MOU with the
- 24 State Police to do criminal gaming enforcement.
- 25 I don't recall anyone mentioning an MOU

1 with the local police. That's not a question that we

- 2 specifically asked, but I don't recall that.
- 3 COMMISSIONER McCABE: Thank you.
- 4 CHAIRMAN DECKER: Bill?
- 5 COMMISSIONER CONABOY: Just a quick
- 6 follow-up to Commissioner McCabe's question. Since
- 7 Pennsylvania right now is slot machines only and
- 8 probably most likely may be cashless slot machines
- 9 and certainly, we don't have table games, will that
- 10 affect the number of enforcement personnel that you
- 11 project that we would need?
- 12 MS. LEWIS: I certainly think that based
- 13 upon our research, you know, having cashless slot
- 14 machines should help reduce the number of personnel
- 15 that you would need.
- Just to step back for a second, the
- 17 cashless slot machine basically reduces the amount of
- 18 cash that is in the system.
- 19 What happens in most cases is that the
- 20 consumer goes up to a slot machine. They put their
- 21 bill in and then instead of having a lot of coins
- 22 coming out if they win, a ticket comes out.
- The consumer, themselves, has a lot more
- 24 control over their cash and so that reduces the
- 25 number of coin bucket thefts that are possible. It

1 also just reduces the amount of change outs that has

- 2 to occur at the machine itself. Having less cash in
- 3 the system helps to then reduce the amount of theft
- 4 that is potentially possible.
- 5 CHAIRMAN DECKER: Who finds most of the
- 6 cheating that goes on if there is cheating?
- 7 MS. LEWIS: A lot of the cheating can be
- 8 observed through the surveillance of the casino
- 9 facilities themselves because, you know, as most of
- 10 us know being in casinos, they have the eye in the
- 11 sky where they are there watching the surveillance.
- 12 CHAIRMAN DECKER: Who is they?
- MS. LEWIS: Being the casino operator,
- 14 surveillance team and their cameras.
- 15 COMMISSIONER COY: Mr. Chairman?
- 16 CHAIRMAN DECKER: Please, Jeff.
- 17 COMMISSIONER COY: Let me try a question.
- 18 I think I may have an idea what your response will be
- 19 and anticipating that response, the next question
- 20 would be, can this kind of study be done or has it
- 21 been done?
- I think we're all interested in enough
- 23 security and enough enforcement to assure the public
- 24 and the participants that they are gaming in a
- 25 protected environment and a safe environment.

- 1 Has your study shown or are their studies
- 2 that show any direct correlation between the amount
- 3 of enforcement that is present and the amount of
- 4 revenue or sales?
- 5 In other words, does not enough enforcement
- 6 bring down sales because people are not feeling safe
- 7 and secure; or does too much enforcement, obvious
- 8 enforcement, if you will, tend to bother the amount
- 9 of sales or have a negative effect on the amount of
- 10 play in gaming? Do you understand where I'm going
- 11 with this or is there a correlation?
- MR. FRENCH: We didn't research that,
- 13 Commissioner Coy.
- 14 COMMISSIONER COY: This is part two?
- MR. FRENCH: Yeah. Once you retain
- 16 Pricewaterhouse, they never leave.
- 17 COMMISSIONER COY: Right. Self admission
- 18 is good for the soul.
- 19 MR. FRENCH: We did not address that. I --
- 20 my only comment would be that clearly, the way we've
- 21 looked at markets, you know, nationally,
- 22 internationally, the volume of play is clearly driven
- 23 by the market demographics and the dynamics of the
- 24 market.
- 25 Simply said, if you have a lot of people

1 close by and, you know, all people have some level of

- 2 propensity to game, then the venue will be
- 3 successful.
- 4 COMMISSIONER COY: So your conclusion is
- 5 the amount of security personnel either present or
- 6 not present has nothing to do with the amount of
- 7 play?
- 8 MR. FRENCH: Yes. That would be my
- 9 thought. I would say we never assessed it. I would
- 10 -- there are a lot of gaming environments that I have
- 11 been in. Some are on tribal gaming destinations in
- 12 remote areas and big commercial casinos everywhere.
- I would say that, you know, I have not --
- 14 you know, in all instances, it's really driven by the
- 15 market dynamics.
- 16 In many places, there are casinos, a lot of
- 17 them I guess are illegal where I certainly probably
- 18 wouldn't want to attend. You know, when there's no,
- 19 you know, lights in the parking lot and you have to
- 20 go down a dirt road, you know, that doesn't make you
- 21 too comfortable.
- In the major jurisdictions, the nine that
- 23 we assessed and analyzed, I would say that the
- 24 success of those casinos is driven by the market

24

49

1 COMMISSIONER COY: I suspected that would 2 have been your answer, but I do think it's an 3 interesting subject to explore in terms of the security that the participants would feel and be 5 exposed to and whether that affects -- I would think it would have a definite effect on the folks that 7 would be older folks, seniors that might not be as comfortable on their own or without security. It's 8 just a subject that I had some interest in. Thank 9 10 you. 11 COMMISSIONER MARSHALL: May I? 12 CHAIRMAN DECKER: Please. 13 COMMISSIONER MARSHALL: Shifting gears a little bit. This is probably more in the nature of 14 an observation or a series of rhetorical questions. 15 I appreciate the work you guys have done. I think 16 this is great. 17 18 Let me just kind of tell you what I am wrestling with. I get nervous about best practices 19 that are so defined by a majority. I think it's 20 21 important that we don't leave here today just saying 22 that we have 15 pages of statements that say in the

majority of jurisdictions, this is what happens.

I think it's important to observe for the

1 represent a great cross section, also represent nine

- different jurisdictions that may do things for
- 3 varying different degrees. In some cases, I guess,
- 4 Nevada has been in the business for over 30 years.
- 5 I would submit to you that, I think, our
- next step with our help is to then go through each 6
- one of these and assess whether we want to take the
- 8 so-called majority view, whether the majority view
- constitutes, in fact, a best practice. 9
- 10 One of the advantages we have, I think, in
- 11 Pennsylvania is that we get a chance to look at the
- past and maybe chart a better future. 12
- So what would be really helpful, and I 13
- 14 don't know how we construct this in the context of a
- 15 charge, would be to then take these things and then
- say, our recommendation would be that casinos having 16
- holding cells in a majority of the selected 17
- 18 jurisdictions represents a best practice and one
- 19 Pennsylvania should adopt for the following reasons;
- 20 or doesn't represent a best practice and we would
- 21 advise you to go in another direction. Maybe if you
- 22 guys could get together with our staff and take a
- look at that. 23

```
24 CHAIRMAN DECKER: At the same time, I don't
```

25 think we want to drop back to maybe what New Jersey

- 1 did 30 years ago and in an era where the
- 2 sophistication wasn't there, and the things that they
- 3 do, they do now, it's very different.
- I don't think we want to jump in this thing
- 5 and say, well, because we're getting started, we have
- 6 to do what other people did 30 years ago when they
- 7 first got started. I know you're not saying that.
- 8 COMMISSIONER MARSHALL: Actually, I was
- 9 agreeing. That's what I was trying to say, that I
- 10 think the caution I would -- at least based on
- 11 hearing your report and not having a chance to
- 12 reflect much more on it, I would hate for us to jump
- 13 out of here today saying, here is the manifesto. We
- 14 take the majority of you in each one of the
- 15 jurisdictions, which may or may not work for us.
- While it's tempting, you know, being in
- 17 healthcare, we're full of best practices. You run
- 18 like lemmings to the sea. We could also be in a
- 19 position -- I would submit to you that we want to be
- 20 careful and not fall into the trap, as the Chairman
- 21 said, of doing things because 30 years Nevada did it
- 22 this way and then everybody else that came along.
- I remember back when the presentations we

- 24 got in December and it seemed like certainly, in the
- 25 area of IT, there's a whole new world of IT available

- 1 to us that wasn't available to any of these
- 2 jurisdictions when they started.
- 3 Again, I don't know whether this is more in
- 4 the nature of an observation. I'm not expecting an
- 5 answer. I think it's a caution that I feel compelled
- 6 to put forward.
- 7 CHAIRMAN DECKER: Let me just say something
- 8 else. Chip, you may not be aware of it. We have a
- 9 Security Committee that has been spending a lot of
- 10 time looking -- I shouldn't say a Security Committee
- 11 -- BIE Committee, if you will, composed of
- 12 Commissioners Colins, Conaboy, McCabe, and myself,
- 13 I'm sort of ex-officio but looking at these issues.
- 14 We've met with PwC on a preliminary basis
- 15 and we have had many discussions, a number of
- 16 discussions with the State Police. Let me turn it
- 17 over to Ken with that said.
- 18 COMMISSIONER McCABE: I want to say great
- 19 minds think alike. For the record, Chip, I brought
- 20 those same comments to the attention of
- 21 Pricewaterhouse when we have met in preliminary
- 22 meetings, that just because it's the majority doesn't

- 23 mean -- I've seen that in law enforcement also,
- 24 having participated in an inspection program and gone
- 25 out and inspected offices.

- 1 The majority are doing it this way but it's
- 2 wrong. It's not the best practice. These two or
- 3 three over here are really doing the best. I've
- 4 surfaced that before.
- 5 CHAIRMAN DECKER: Let me comment again.
- 6 When you look at nine jurisdictions that are
- 7 relatively sophisticated, they're all not stupid.
- 8 Okay.
- 9 When eight or nine of them are doing it a
- 10 certain way, it gives you an idea that maybe, just
- 11 maybe, that might be a good place to look at where
- 12 you are going to start. There are other things about
- 13 our law which are very different.
- 14 Secondly, there are things about the kind
- 15 of image we want to present to the public which maybe
- 16 will require a little bit more of a presence for
- 17 criminal enforcement than perhaps, you know, Nevada
- 18 needs 30 or 40 years after they have started up.
- 19 We're well aware of that. I don't want to
- 20 give anybody the impression here that we're going to
- 21 do one of two things. We're going to overload the
- 22 system or we're going to skimp in the name of not

- 23 providing the kind of protection the public needs.
- 24 With all of those things said, I think your
- 25 report is extremely useful. It provides a lot of

- 1 information where sophisticated people are today in
- 2 their regulatory environment, their investigative
- 3 environment and their surveillance. I'm not trying
- 4 to conclude anything. I'm just saying, that's what
- 5 my perspective is at least.
- 6 COMMISSIONER DIGIACOMO COLINS: I would
- 7 like to add that it's my view of this report that
- 8 Pricewaterhouse has basically been our eyes and ears
- 9 and done our legwork and they have done on a grander
- 10 scale what we did on a very limited scale.
- 11 We went to New Jersey. We went to Nevada.
- 12 We reviewed for ourselves through question and answer
- 13 interviews and meetings what their practices are.
- 14 This is a broader scope that gives us more
- 15 insight into other jurisdictions. I think I view
- 16 this as something that is advisory and something for
- 17 us to use as a baseline. So thank you.
- 18 COMMISSIONER MARSHALL: Well, I don't want
- 19 to give anybody the impression that I'm critical of
- 20 the report. I'm not. I think it represents exactly
- 21 what we asked you to do.

- I guess I just wanted to note the caution
- 23 that I would hate to take this report and everybody
- 24 run off and then six months from now say, well,
- 25 you're not doing the majority view. Therefore,

- 1 you're not doing best practice. That's all I was
- 2 saying.
- 3 CHAIRMAN DECKER: Mike and Sharon have
- 4 cautioned us that our needs -- in fact, in some of
- 5 the reports, you'll see a statement that underneath
- 6 the recommendation, the Statute provides the
- 7 following in Pennsylvania. They have been very keen
- 8 to that.
- 9 Before we get away, Treasurer Casey has a
- 10 problem.
- 11 TREASURER CASEY: Thank you for the report
- 12 as well. I just wanted to direct your attention to
- 13 page 6 of the report. For those who don't have it,
- 14 the focus of my question is on the criminal
- 15 background investigations, the nature or the elements
- 16 of those kinds of investigations.
- I just wanted to see if you had some more
- 18 detail than I see here. The three -- the statement
- 19 reads, in selected jurisdictions, criminal background
- 20 investigations typically involve fingerprinting,
- 21 intelligence checks, and credit checks.

- MS. LEWIS: Correct.
- 23 TREASURER CASEY: Are there jurisdictions
- 24 or were there jurisdictions that you reviewed where
- 25 they asked for other information like tax returns,

- 1 investment data, other kinds of financial
- 2 information?
- 3 MS. LEWIS: What we were trying to do here
- 4 is specifically define a criminal background
- 5 investigation as apart from a background
- 6 investigation.
- 7 In a background investigation for the
- 8 higher level employees, typically, they will require,
- 9 you know, financial information such as tax returns
- 10 and that kind of thing.
- 11 Specifically, here we were asking how do
- 12 you define criminal background investigation and
- 13 pretty much across the board, it was fingerprints and
- 14 then intelligence checks and in some jurisdictions a
- 15 credit check.
- 16 TREASURER CASEY: Is there a way to in a
- 17 way that is similar to the criminal background
- 18 summary, is there a way to itemize the financial
- 19 background check information that they would -- a
- 20 majority would typically require?

- 21 MS. LEWIS: A majority do require financial
- 22 information when you're looking at what would be
- 23 called a key license.
- 24 TREASURER CASEY: Okay. And what does that
- 25 typically involve in terms of the -- just the

- 1 elements of a financial --
- 2 MS. LEWIS: The financial information, I'm
- 3 going to be doing this off memory.
- 4 TREASURER CASEY: Okay.
- 5 MS. LEWIS: Typically, it would be, you
- 6 know, might have someone's net worth being looked at
- 7 the individual level. You might have tax returns at
- 8 the corporate level when you're doing the financial
- 9 investigation.
- 10 You might be looking at their debt
- 11 structure, their cap structure. I would consider
- 12 that to be a financial component, also looking at
- 13 their audited financial statements if appropriate and
- 14 tax returns. Again, that's at the corporate level.
- 15 TREASURER CASEY: And this will be for
- 16 another day and may have been covered by someone
- 17 else. Is there a way to take and compare what they
- 18 asked for in regard to financial questions and
- 19 financial data and compare it to the Pennsylvania
- 20 Statute or what Pennsylvania would require? Is that

- 21 something your firm could do or has done, or would
- 22 that be part of this or not?
- 23 MS. LEWIS: I think we have most of the
- 24 information we need to give to that. I can follow-up
- 25 with you, if you would like.

- 1 TREASURER CASEY: Thank you. I think for
- 2 the Board more, generally. Thank you.
- 3 CHAIRMAN DECKER: Any other questions?
- 4 Please, Secretary Wolff.
- 5 SECRETARY WOLFF: Just a question, the
- 6 other states that have slots, casinos at racetracks,
- 7 was there ever any integration or were they always
- 8 separate, stand alone units on those facilities?
- 9 MR. FRENCH: I'm not sure I understand your
- 10 question. The existing racetracks that became
- 11 ultimately slot parlor, rasinos --
- 12 SECRETARY WOLFF: Correct.
- 13 MR. FRENCH: -- they were typically in most
- 14 cases, in most states that we have done this in,
- 15 states that were not included in our analysis states
- 16 that have those types of gaming venues, they were
- 17 existing racetracks, some successful, some
- 18 unsuccessful, some more successful than others.
- 19 Typically, when there was some roll out of

- 20 a gaming initiative, whether it be slots or BLTs,
- 21 they were added to the existing space or an expansion
- 22 of the existing facility was made contiguous to the
- 23 track to provide, you know, slot gaming.
- 24 SECRETARY WOLFF: But were separate, they
- 25 never integrated at all, in terms of having slots in

- 1 an area where you could bet and bet on horses?
- 2 MR. FRENCH: For the most part, it usually
- 3 happens in phases. In many cases, there's a
- 4 motivation to open quickly. So in some of the common
- 5 areas, you know, machines might be initially brought
- 6 in on a limited basis. That's usually the first
- 7 phase.
- 8 Then while the machines are up and
- 9 operating and generating revenue and generating
- 10 traffic that will hopefully support the track and the
- 11 horsemen and all of those other things, the
- 12 construction for the permanent facility is started so
- 13 then they can expand and go from -- I have seen 250
- 14 machines, 500 machines and then ultimately to get,
- 15 depending upon what is legal in that particular
- 16 jurisdiction, the full complement.
- 17 SECRETARY WOLFF: Thank you.
- 18 CHAIRMAN DECKER: Please, Chip.

- 19 COMMISSIONER MARSHALL: I would like to
- 20 follow up on that. I would suppose if you have a
- 21 rasino, which I define as a racetrack where there's
- 22 slot or I guess you say BLTs take place, the idea is
- 23 you would want to have them be synergistic.
- In a perfect world, if you're operating one
- 25 of these things, you want somebody to come in, have

- 1 dinner, play slots for an hour and then go bet on a
- 2 racetrack. Is that the, I guess, ambiance or
- 3 environment that people are trying to create?
- 4 MR. FRENCH: Ideally. Again, it will
- 5 depend on the racetrack and the market in which that
- 6 racetrack exists.
- 7 Some racetracks, you know, independently on
- 8 their own are doing very well. People go there.
- 9 They eat. They have a nice day. Some tracks have
- 10 many more race days than others.
- 11 Generally, what you want to do is integrate
- 12 the facility. Oftentimes, you know, capital
- 13 limitations, you know, access to capital limitations
- 14 provide some restrictions as to how much money you
- 15 can invest and you get a disjointed facility.
- 16 Sometimes you find out, I've seen this in
- 17 the past, a lot of activity at the track is on one
- 18 side of the building. It's where the slot machines

- 19 are.
- 20 MS. LEWIS: You may also find that your
- 21 customer base is different. The people who play
- 22 slots are not necessarily the people who are going to
- 23 bet on the ponies.
- 24 COMMISSIONER MARSHALL: But I would assume
- 25 since racing was somewhat of the driver of this that

- 1 there is a notion you would want, if possible, to
- 2 have people could choose to do both?
- 3 MR. FRENCH: Yes. People could choose to
- 4 do both. One of the, I think, most defining benefits
- 5 has been that the slot win and the revenues and the
- 6 taxes generated have provided for the horsemen and
- 7 provided for better purses.
- 8 Consequently, the purses were better and
- 9 then you were able to get better horses and that
- 10 upgraded, you know, the attraction and upgraded the
- 11 traffic in the parlor.
- 12 COMMISSIONER MARSHALL: Where I was trying
- 13 to get to is where you have that sort of integrated
- 14 or synergistic environment, are there security or
- 15 operational concerns peculiar or particular to that
- 16 kind of setup versus just a vanilla slot parlor in
- 17 your experience?

- 18 MR. FRENCH: I'm really not sure. I'm
- 19 really not sure of the answer. I don't know if there
- 20 would be other challenges. There may be because
- 21 you're mixing different types of patrons in a common
- 22 space.
- 23 CHAIRMAN DECKER: Mike, wouldn't you agree
- 24 that you have -- one of the things that you have to
- 25 do is make sure that people who are not licensed or

- 1 permitted on the racetrack side, employees can't
- 2 automatically go over into the casino side because
- 3 they're not permitted and not allowed to be there?
- 4 Except -- I don't know what the issue with respect to
- 5 their perspective gambling.
- 6 MS. LEWIS: This is not necessarily a
- 7 sweeping generalization. Within the jurisdictions
- 8 that we looked at that were more racino
- 9 jurisdictions, they were also -- they also had a
- 10 Central Computer System and so that helped to then
- 11 reduce the manpower and it helped to really, you
- 12 know, streamline it and make it not as complex.
- 13 COMMISSIONER MARSHALL: In that environment
- 14 though, if, in fact, that exists, will we end up
- 15 having to be concerned with security, licensing of
- 16 people who are more oriented toward the track, a
- 17 piece of that? To your point is that you can't make

- 18 that distinction. Is that something we have to get
- 19 smart about?
- 20 MS. LEWIS: I would say that we probably
- 21 need to do additional research but to -- in the two
- 22 jurisdictions that we looked and, again, it's not a
- 23 broad sweeping generalization but the two we looked
- 24 at, they were really focused upon doing the licensing
- 25 at the video lottery terminal level versus doing the

- 1 licensing at the racetrack.
- 2 They were separate in terms of how they
- 3 were regulating that. But in order to answer the
- 4 question, we need to look at more jurisdictions.
- 5 COMMISSIONER MARSHALL: That would be
- 6 helpful.
- 7 MR. FRENCH: Yeah. We have -- there are
- 8 mature jurisdictions that are going to be -- that
- 9 have operations that will very much mirror what you
- 10 will have with the first seven licenses.
- 11 So I think there's some good information
- 12 out there and you don't have to reinvent the wheel
- 13 and we can certainly assist in collecting that.
- 14 CHAIRMAN DECKER: Okay. Are there any
- 15 other questions?
- 16 Treasurer Casey, we will take a look at

- 17 that. That's part of the regulatory process. What
- 18 are we going to look at financially and what are we
- 19 going to need to see for those that have been
- 20 licensed in other jurisdictions and those that
- 21 haven't. We need to take a look at what those are.
- 22 It's something that, I think, Mary's group is -- it's
- 23 in there now, isn't it?
- 24 COMMISSIONER DIGIACOMO COLINS: Absolutely.
- 25 CHAIRMAN DECKER: It's a serious issue.

- 1 Any other questions?
- 2 Mike and Sharon, thank you very much.
- 3 Steve, thank you, too. I appreciate your help.
- 4 MR. FRENCH: Thank you.
- 5 MS. LEWIS: Thank you.
- 6 CHAIRMAN DECKER: It sounds like you have
- 7 some other assignments. We'll talk later.
- 8 We're going to go into an Executive Session
- 9 to talk about potential hires, if you will. We're
- 10 not going to come back today.
- 11 COMMISSIONER MARSHALL: Ever?
- 12 CHAIRMAN DECKER: In a couple of weeks
- 13 maybe.
- 14 Is there any other new business to come
- 15 before the Board?
- The Board's next meeting is scheduled for

```
June 2nd at 10:00 a.m. in Pittsburgh at Carnegie
17
18
     Mellon University.
               We have a couple of graduates from Carnegie
19
20
     Mellon. I would ask the question, are they
21
     accredited? I shouldn't ask that, right? I hope so
22
     since they're a Pennsylvania college, correct?
23
               If there are no objections, then the
24
     meeting will be adjourned. Thank you.
25
               (The meeting concluded at 4:22 p.m.)
                                                         65
 1
               I hereby certify that the proceedings and
     evidence are contained fully and accurately in the
     notes taken by me on the within proceedings and that
 3
     this is a correct transcript of the same.
