Message:
I vehemently object to casinos in Gettysburg.

I would like Gettysburg to remain an historical, quaint town which already has enough visitors.

A casino, in my opinion, goes against everything that Gettysburg represents - it is a BAD fit.

We do not want a casino in Adams County. I do not want a casino in my front yard. This is a safe place to raise my family and a friendly neighbor for families where our children are safe to run & play and ride bike any time of day! I do not like the idea that one day there would be a casino in our neighborhood. We must say NO to the casino!!

Message:

My husband and I are totally and completely against the casino in Gettysburg. Not only will it draw business away from the local businesses that may already be experiencing difficult times, but it will bring those to the area that will not respect or understand what happened here. I feel that the negative attention that this will draw to Gettysburg is NOT worth the casino going in. It breaks my heart. We have gone this long without a casino- surely we will be just fine WITHOUT it!

A casino is one more thing in our locality that promotes an addiction. Addiction to gambling (not to mention losing money that may be needed to feed their children & keep a roof over their heads), as well as to alcohol, etc. With a casino and the ghost tours how can Gettyburg be blessed? We've totally pushed Him out of the equation with things that He abhors.

I think a casino is not the right vision for the Gettysburg/ Adams area and it will not be a generator of jobs that will keep the best and brightest residents from leaving. It is too bad Mr. LeVan does not use his knowledge, experience and influence to create a more forward thinking plan which develops jobs our county and nation need to be economically strong. If it is true a college education is necessary at a minimum to secure a well paid job with the opportunity for advancement, this endeavor will not fulfill that dream. We are an agricultural/ heritage site, not a gambling district. We should be able to compliment these pursuits with businesses that promote a more sustaining way of life.

I am opposed to the casino. No matter what they say, crime will increase, drugs, gambling addiction and the associated problems will increase and the money the city of Gettysburg gets will not begin to cover the associated costs of the casino. This is a bad choice for the people of Gettysburg. We have enough problem with crime, drugs and we will likely add prostitution and an increase in burglaries to feed gambling habits. Our jails will be full. Everything associated with the casino will drive up the county budget.

Gettysburg is hallowed ground and we must not allow it to be defiled with the construction of a casino which is for the benefit of the investors and will be to the detriment of our native land and our people. This casino will encourage people to use and likely lose their hard earned money needed to support their families. Gambling leads to addiction and destruction of family values.

I do not want a casino in Gettysburg for various reasons but the most important one is that I do not want the children of Gettysburg to be so easily exposed to the addictive nature of gambling. Message:

It is sad to think that here in Gettysburg where so many valiant soldiers gave their lives and where they now rest in peace that there are people who want to turn it into a giant casino. Do we have no respect for their final resting place? In addition to that, with the casino will come many problems that our small town does not need. Gettysburg has always been a family friendly town and I feel we will lose that when we bring an Atlantic City atmosphere into town. There are many other areas in our state that are more appropriate for this type of business. Let Gettysburg remain as it is.

Message:

Gettysburg is a historical landmark not only to our relative area, but in our history. In my *personal opinion*, it will draw a different crowd that won't see Gettysburg for it's historical value, but as a place to "hit up the tables". The traffic that is already there will multiply which will lead to more traffic jams and angry resident. Which in turns will lead to widening roads and the loss of building which have stood for over a hundred years. Leading to increased taxes for the project and angry residents and a decline in Gettysburg's population.

I understand they are trying to increase revenue and popularity, but they haven't thought through the long term problems this casino will cause. Is it really worth it??

I don't understand why this is even being considered again. It was voted down the last time due to the people not wanting a casino this close to the battlefield, and now it reappears a short time later. Has anything changed in this short of a time period? I don't believe so.

Why must a casino be this close to Gettysburg? For one reason only, access to the flow of tourists that this town gets every year. I would imagine that if Hanover or York were offered up as an alternative, there would not be any interest in placing it there by any of the investors.

Anyone who conceives of building a casino near the Gettysburg Battlefield is nuts! If this idea comes to fruition, this town will encounter crime, more traffic and certain undesireables! This must not happen. A casino is just not compatible with our unique place in American history! We stopped the other stupid proposal and we can defeat this one also. The public must not be naive to what's taking place! We must keep bugging the game board and our legislators until they realize what a mistake it would be to allow this folly to exist. NO CASINO, PERIOD!

Won't the bright neon lights of the casino create a striking contrast to the peaceful

Casino = crime....and even if it did bring more money to the community (which I don't
believe it will) it's not worth sacrificing the tranquility of the town.

The problem begins with the fact that there is nothing to do in Gettysburg at night.

Period.

You can drink or eat, and that's it.

WAIT...

You could see a movie...

Wow.

What are the options?

Some shops stay open later during the season; but for the most part, sidewalks roll up around 8pm and all you see are people walking around asking anyone they can find "What's there to do???"

"Lets see a show."

Sorry, live theatre shows are not attended by tourists; consequently, few or no options.

I know from trying to start one as well as seeing others try to do the same.

In fact, I dare you to compete by offering a more sophisticated form of entertainment.

You will fail miserably.

This casino would compromise the health of this community and the health of it's families. It can't be all about the money...all the time. Even in that case, it's money for the few. Casinos do not exist to put money in the pockets of those who play the "games". It does not exist to benefit the communities in which they take hold. In fact, there is a good deal of research to support the opposite effect...it diminishes the quality of life for many within the community. Gambling addiction produces a higher suicide rate than any other addiction, including heroin. Nice...just what we want for our children and families.

I am 100% opposed to the establishment of a casino in Gettysburg.
Gettysburg is thought to be hallowed ground, not the home of a casino.
Building a casino in the Gettysburg area would desecrate the memory of the American soldiers who fought and died here. If a casino MUST be built, build it someplace else. Gettysburg is simply not the place for such an exploitive position. Tourists, students, soldiers and all the other visitors come to Gettysburg and will continue to come to Gettysburg for the history that took place here 3 days in July not to play slots and table games. Please be considerate of this sacred place.

Dear PGCB,

The answer to the question of whether or not to approve a casino in Adams County lies in the infrastructure of this rural area. If approved, the roads, the source of water, the police, the local hospital - all would be stressed beyond capacity. In addition, there is no paid fire department anywhere in the county; therefore, emergencies would be attended to by volunteers. Please consider these facts as you weigh your decision.

Thank you.

We strongly oppose a casino in or around Gettysburg and we are Adams Co residents. We have never been given a poll to ascertain our opinion and feel the folks here have not been truly counted. We also feel the folks who visit Gettysburg should have a say--it will be a completely different environment if a casino arrives in our otherwise rural, family-friendly community. We have a historical part to play in the nation--let's increase our emphasis there and forget the gambling aspect.

We were against the Casino the first time and we still are opposed to it. Those in favor do not seem to understand the detrimental effects it has on families and society in general.

There is no guarantee that it will be successful and provide jobs.

We fail to understand why an area like ours in which the future of our nation was decided should have a casino which would cheapen the sacrifice made by all those men and women who fought to keep our nation united and to end slavery.

There are hundreds of small towns where a casino would be appropriate, Gettysburg is not one of them! Message:

My reasons for opposing the Casino near the Gettysburg Battlefield are many.

- 1) Respect for the many soldiers who lost their lives here and are memorialized by the National Military Park and Cemetery.
- 2) Concern for the small businesses in the downtown area that will be (I believe) adversely impacted by the Casino, especially restaurants, motels, and souvenir shops.
- 3) Disapproval of our relying on gambling as a revenue source to pay for those services that as citizens we should be willing to support.
- 4) Concern for those who may become addicted to gambling, thus endangering their futures and that of their families.
- 5) Isn't there already a casino near Harrisburg, only 30 minutes away?
We don't need to spoil the historic, small-town atmosphere of Gettysburg with a Casino.

If this casino is obtained I will move! Gettysburg is just fine the way it is. Why dirty it's history with a bunch of drunken gamblers????? Too many died here. Some speak of more jobs, but are they the jobs that will allow you to support your family? Uh lets see, waitress...no, dealer....uh no, maid.... no again. Take a look at the other towns that have casino's, are they better off for them? NO!!!!

Only the people that are going to make a whole lot of cash off of them will tell you otherwise. Educate yourselves people before you agree to this.

I had relatives who fought there. It is a place of historic importance, where people fought and bled and died. But NOT so people could gamble there.

Why is money always so important? What about reverence and honour for the sacrifices made there- for the souls lost?

Gambling is no good for anyone except those who directly profit from the greed of others. People who have little money will waste it in the hopes of winning big; then we all lose. What a pity, what a shame- it is almost a crime.

I am absolutely opposed to locating a casino near to the Gettysburg Battlefield where so many sacrificed their lives so that others could live in freedom. This is all about greed. Men did not die so that others would be enslaved. My wife's great-grandfather fought for the Union at Gettysburg. He fought to free slaves, not make others slaves to gambling. I pray that Mr. LeVan is as successful at this attempt to create a casino in Gettysburg as he was in his last one. I do not buy the argument that a casino will create an economic windfall for Gettysburg. It has a high probability that it may do the opposite.

Message:

Individuals and families come to Gettysburg to learn about history. They come to Gettysburg to learn about the great sacrifices so many made to keep this nation whole. Gettysburg is wonderful community and a great place to raise a family. My wife and I moved here to get away from the city to live in a small town with a great history. Let's not cheapen the wonderful family experience by putting in a casino that will bring people here that don't care to learn about the history of our little town. I am a homeowner I don't believe there will be any property tax relief. All we will gain is blight on our town and an unwanted element visiting our town. Traffic is also a consideration when looking at this casino. We already have traffic problems and I am sure that the casino going in just one-half mile from the Gettysburg National Military Park is only going to exacerbate the traffic problems. No casino in Gettysburg. Let's save this very important piece of American history and keep it free of a cheap and tawdry casino.

Message:

Gettysburg is a National 'treasure' - people come here to learn about the history of our country and to remember the sacrificies that were made here. We must keep Gettysburg as it is to preserve all of this in an acceptable manner. To get people to come to Gettysburg we don't need to attract them with a casino. As many have said - look around the communities where you have casinos.

Message:

A casino will not only desecrate the battlefield, add drunks and crime, but will take business away from the town.

Restaurants can't compete with the free or 99 cent breakfasts that casinos offer to entice people in to gamble.

Local people will also pay to widen the roads and provide other infrastructure. The million the casino has offered the town will barely pay for a few salaries.

I received a canned phone call this morning from "Dave" LeVan, talking about an upcoming meeting about jobs. He must be spamming the airwaves before the August 31 meeting.

I am a Licensed Battlefield Guide at Gettysburg National Military Park. The very idea of locating a gambling casino so close to the hallowed ground of the Gettysburg battlefield is disrespectful to the memory of the brave men who fought in the pivotal battle of the American Civil War 147 years. Do the developers of this casino proposal have a shred of patriotism and respect for the foundations of the Republic?

Message:

I think it is absurd to put a casino ANYWHERE in Gettysburg!! Hallowed ground is hallowed ground. Besides that, Route 15 is part of the Government-mandated Journey through Hallowed Ground which is all about historic preservation...how does a casino fit in with that??? NO WAY!!! What a shame, this idea should move on elsewhere.

Message:

Besides the obvious closeness to the Battlefield, the roads cant handle the traffic and the local police will need to hire more officers. Even with more officers its never enough, and if you doubt this look at Parx, Bensalem and what is currently in the news for the month of August 2010 concerning Parx, even the gaming board has a problem with public safety at Parx.

We do not need a casino in Gettysburg. This town should be remembered for the battle that took place here, and the men who fought. A casino would take away the retail merchants funds and livelihood, as monies would be spent there , and not in town.

I feel the Battlefield is sacred ground. Our ancestors lost their lives here. It is the greatest place to live, because of the low crime rate and beautiful surroundings. The casino will ruin, both. The traffic is bad enough when tourist season is here. I hate to think of the traffic that the casino will bring. Take a look at Atlantic City and see how that has turned into a getto. Thank you for trying to keep it out.

Message:

The casino will be like a heroin hit to this community. The first time is fun but will eventually rot this area from the inside out. This area is an important historical landmark not only for this area but for this nation. How insulting is it to our very heritage to try and cash in on it in such a cheap and disgusting manner? Casinos do not attract just good and decent people who would enjoy the area by day and then shoot craps in the evening. It will be visited by people who are only interested in gambling, eventually local (small) business will be trampled under large chain stores who cash in on people like that. How dare they do that to such an important piece of American history. I pray that we will once again dodge this community sized bullet, if not... well just look at Atlantic City.

Message:

I am against a Casino coming to our beloved Gettysburg for several reasons. 1) Our teenage children will without a doubt flock to the overflow of prostitution, drugs and off-premises betting that occurs around this type of place, instead of my teenage son wanting to climb devil's den, he will literally be in a "devil's den of thieves." 2) Our so called "Fair reassessments" may have occurred (in a recession I might add) due to pressure on the homeowner to vote for the casino for tax relief. If the promise is 1.5 million in tax relief for homeowners, that's not so much relief, for all the homeowners in Gettysburg, I might get \$25.00 in tax relief. My taxes went up almost 1/2 and I only have 3/4 of an acre! What about all the retired folks trying to make ends meet on a fixed social security income. How are they going to pay for their taxes. I don't believe it until I see the green! I doubt if we are going to see the casino paying 2 to 3 thousand dollars per retired homeowner. 3) Where are all the dollars coming from for Fire Department, Police, road control. We are already buddying up for fire department relief. Are we getting a new fire department, police department, I don't think so. That's not the main goal for a casino. The main goal is Money, Money, Money, which is the ROOT OF ALL EVIL! 4) What about Charlestown, won't this take away betting from them. It is easily accessible from route 15. It probably goes in the same basket. 5) As far as job security, and creating more jobs. Don't you think that a casino will bring in their own people that know the business, first. The casino will not solve the recession we are in, its global! Given, it may produce jobs in the short term with construction, but that is not job security! There is no job security. Not to mention destroying the hallowed ground that was fought for, would we allow a casino at Mt. Vernon, or Monticello, or Appomattox ETC...

Thank you for reading this. And thanks for the site to vent a little!

I oppose the casino because I believe there are many families that are hurting. The economy is bad and people are losing their homes.

Millions of people are without jobs. What is a casino going to do for them except to give them false hope? How many people will go there expecting to become rich only to lose everything they own. What will happen to these families? How can anyone say this would be good for Gettysburg? Certainly there are individuals we have all known, or read about whose lives have been ruined from gambling. Gambling is addictive and it is wrong. It teaches people they do not have to earn their bread from the sweat of their brows. Who takes care of the people who can't stop gambling? Who takes care of their children? Will it not cause these families who are already hurting to go through more hardship? How can anyone work there and say they make an honest living, when they can take away all the money someone has left. How can anyone vote for this casino and look themselves in the mirror?

MY VOTE IS FOR NO CASINO!!!!!!

TO ME AND MANY OTHERS, THAT IS SACRED GROUND. NOT ONLY THAT BUT, I'M SURE IT WOULD DESTROY THE TOURISM, PEOPLE WANT TO COME & SEE HISTORY. PLUS THE LOCAL SHOPS & RESTAURANTS, NOT ALL THE GAMBLERS. PLUS, THE QUALITY OF LIFE WOULD BE REDUCED. PEOPLE THAT NORMALLY DO NOT GAMBLE WOULD BECOME ADDICTED. GETTYSBURG IS A VERY SPECIAL PLACE & IT WOULD BE DEVASTATING TO BRING A CASINO ANYWHERE CLOSE.

It has always bothered me that Gettysburg, which is essentially a vast graveyard, has been such a tourist (circus) attraction. I reconcile this by reminding myself that tourist dollars keep the area in tact. A Casio will NOT. Visiting Gettysburg should command a certain amount of respect owing to the men who died here. Would you build a casino next to your Father's tombstone?

Please do not let this happen. The area around Gettysburg is ALL sacred ground. I think having a casino so close to the battlefield would be disrespectful. It would be like putting a casino in the middle of a cemetery. I visit Gettysburg every year with my family, my daughter went to college there. When we go, we look upon all of it, the battlefield and the surrounding area, with reverence and awe. I have taught my children to have the deepest respect for all they see there.

I truly hope the hotel thinks again.

Gettysburg's driving heart is its historical significance, its solemn and meditative space at the crossroads of history. Everything it does to preserve an antique flavor and a feeling for visitors of being a little "lost in time" will ensure the town's future. Everything that cheapens its image and that makes it look and feel modern, exploitative, commercial dilutes that image.

A bad idea turned down before is still a bad idea ... even if it's moved a few miles in the other direction. What's up with this anyway?

Why should one person try incessantly to force this thing down an unwilling community's throat simply to line his own pockets? Simple greed, that's all it is. Way back in history, he would've been ridden out of town on a rail. Enough said.

I think there are many gaming options close to Gettysburg for those who wish to gamble. Why is one more casino needed?

My husband and I were driving around the battlefield this spring admiring the beauty of the land; at the same time we said aloud, "Why would anyone want to put a casino here?". We both were feeling a sense of sadness in the way the town might change with a casino coming to town.

Since I lived in Plains Pa when the Casino came into town, I can tell you first hand that the promises of lower taxes, new high paying employment and "putting Plains on the map" never happened. Taxes still rose even higher, to offset more police, fire and ambulance personel. Crime rose in a town where crime was already not so low. I personally had drunks sitting in my yard and urinating in my yard, escapees from the local police pounding on my door for help, and needed to double the locks on my house. Dont let this happen to our area. This is beautiful, peaceful and a wonderful place to live. We moved here to get away from all of the crazy life.

A casino in Gettysburg will simply not be successful. Our millions of heritage tourists come here to see the sacred ground of the Battlefield and try to get a personalized historical experience...they will not spend dime one in any type of gambling facility. Give the license to a location that has a chance of being financially successful.

Please add my name to the Gettysburg citizens who are against the casino. I am dismayed by the divisiveness that this issue is once again bringing to our community, and very concerned about what having a casino will do to the quality of life in this town.

Message:

Gettysburg's driving heart is its historical significance, its solemn and meditative space at the crossroads of history. Everything it does to preserve an antique flavor and a feeling for visitors of being a little "lost in time" will ensure the town's future. Everything that cheapens its image and that makes it look and feel modern, exploitative, commercial dilutes that image.

A bad idea turned down before is still a bad idea ... even if it's moved a few miles in the other direction. What's up with this anyway?

Why should one person try incessantly to force this thing down an unwilling community's throat simply to line his own pockets? Simple greed, that's all it is. Way back in history, he would've been ridden out of town on a rail. Enough said.

A casino in Gettysburg would be a desecration of this hallowed battlefield which so many Americans hold sacred. The economic benefits of this project are overstated, in light of the existing casinos within driving distance. A casinos will harm our community. There should never be a casino in Gettysburg.

I think there are many gaming options close to Gettysburg for those who wish to gamble. Why is one more casino needed?

My husband and I were driving around the battlefield this spring admiring the beauty of the land; at the same time we said aloud, "Why would anyone want to put a casino here?". We both were feeling a sense of sadness in the way the town might change with a casino coming to town.

Since I lived in Plains Pa when the Casino came into town, I can tell you first hand that the promises of lower taxes, new high paying employment and "putting Plains on the map" never happened. Taxes still rose even higher, to offset more police, fire and ambulance personel. Crime rose in a town where crime was already not so low. I personally had drunks sitting in my yard and urinating in my yard, escapees from the local police pounding on my door for help, and needed to double the locks on my house. Dont let this happen to our area. This is beautiful, peaceful and a wonderful place to live. We moved here to get away from all of the crazy life.

Message:

A casino in Gettysburg will simply not be successful. Our millions of heritage tourists come here to see the sacred ground of the Battlefield and try to get a personalized historical experience...they will not spend dime one in any type of gambling facility. Give the license to a location that has a chance of being financially successful.
