Dear Ms. Yocum:

With a review of Pa's blackjack rules coming in the near future I support the retaining of the current rules as were adopted when our table games were introduced. They are fair rules for both the player and casino enabling both to participate in a game where rules do not favor either by a large percentage.

On a very definite note, continue to disallow the 5-5 BJ game which swings odds by a large percentage to the casino.

On a quite positive note: our Pa rules are better than New Jersey's which brings more table action to us.

Yours truly,
S.A. Foye
