## FOOTNOTES:

<sup>1</sup> *Promotional plays are determined to be internal or external based on the way that they are handled by the slot machine meters and the Department of Revenue's central computer system (CCS). Internal promotional plays are recorded as wagers when they are played. Since the statutory definition of gross terminal revenue (GTR) excludes promotional play, the internal plays must be subtracted from "Wagers Received" before the GTR is calculated and the appropriate tax rate is applied.*

*External promotional plays are recorded as both a wager and a payout when they are played. Therefore, external plays must be subtracted from both "Wagers Received" and "Amount Won" before the GTR is calculated and the appropriate tax rate is applied. This results a net change of zero to GTR and the appearance that the external promotional plays have no impact on GTR. In reality all promotional play, whether internal or external, is deducted from GTR.*

*Since the inclusion of external promotional plays in the "Amount Won" essentially overstates the amount won when compared to other venues with internal promotional*
